Gorgeous Glass at the Flint Institute of Arts (FIA)

The FIA has artwork by some of the most significant contemporary glass artists and ceramicists from all over the world! It is the second largest art museum in Michigan with one of the largest art schools in the nation. We will see three newly created galleries displaying the contemporary glass and ceramics. Check out <https://flintarts.org/art/collections/contemporary-craft/glass> for

more information and inspiration to join us! We will also have time to view the exceptional collection of European and American art from the 15th century to present. Join us as we explore this gem right here in Michigan.
